Grown-up Medicines, nail trims, deep cleans, vet visits and anything with heat, chemicals or handling risks.

A grown-up stays responsible
Kids can take on real jobs, but a pet's food, water, health and safety are always an adult's job. Check every day that the care really happened.

Not veterinary advice
General information for healthy pets; not reviewed by a vet. Young, older or unwell pets often need a different routine. Ask your vet, and for small pets, birds, reptiles and fish, one who treats exotic pets.

Notes from our vet

For grown-ups

- Fumes from overheated nonstick (PTFE) pans, aerosols and scented candles can kill birds.
- Birds hide illness. A fluffed-up, quiet bird needs an avian vet soon.
- A grown-up stays responsible for food, water, health and safety. If your pet seems unwell, call a vet.
